Name: _____
Date: _____

Description: This Skill Guide is intended to instruct and/or evaluate a RIT team using a Drag Rescue Device to extricate a downed firefighter.

Related Instructor Guide:

Performance Standards:

FF Removal- DRD Strap		P	F
Task: Working as a member of a RIT, use a downed firefighters DRD strap to extricate from a single story building.			
Conditions: In a simulated IDLH atmosphere, wearing full PPE including SCBA, in varying degrees of visibility based upon the teams expertise performing the task. Remove a firefighter from a single story building using the DRD.			
	Objectives	P	F
1.	Turn off PASS device if not already off		
2.	Convert SCBA to Harness and attach RIT air pack if applicable		
3.	Locate DRD Strap		
4.	Pull DRD strap until fully extended		
5.	Drag Downed firefighter using the DRD strap		
6.	2 nd RIT team member simultaneously push toward first RIT member while exiting		
Performance Outcome; A RIT comprised of at least two members will extricate a downed firefighter.
