

Region 2 Technical Rescue

Region 2 Technical Rescue Team Policy, 2018

ON DUTY – Daily Roster

Purpose: In an effort to better organize technical responses, TRT-Rescue Technicians working on shift will affirm their on duty status daily. This effort will help to maximize the rescue response capabilities and limitations for a first alarm technical rescue within Kitsap County.

Scope: All TRT Personnel

Guide:

1. The Active 911 General Alert will send a notification at 0910 daily.
2. Daily- On shift rescue technicians press ON DUTY on their device under the Alerts Tab, to acknowledge working ON shift status.
3. If not on duty that day, the member does not respond on their device.
4. NOTE- under the Settings Tab, members are advised to NOT press OFF DUTY Status. Doing so will block ALL notifications until the tab is reset to ON DUTY. Exceptions are for when members are not able to respond, etc.
5. In the event of a drill announcement or reminder, members shall respond with "AVAIL" if they intend to attend training.
6. In the event of an actual response, those members responding shall select "RESP" once enroute to the incident.
